Should Fix:

Avoid landing page redirects

Your page has 2 redirects. Redirects introduce additional delays before the page can be loaded.

[Avoid landing page redirects](#) for the following chain of redirected URLs.

- <http://dubaijobse.com/>
- <https://dubaijobse.com/>
- <https://www.dubaijobse.com/>

Reduce server response time

Mobile

In our test, your server responded in 1.3 seconds.

There are many factors that can slow down your server response time. [Please read our recommendations](#) to learn how you can monitor and measure where your server is spending the most time.

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 1 blocking script resources and 5 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Remove render-blocking JavaScript:](#)

- <https://fonts.googleapis.com/css?family=Lora:400,700>

Optimize images

Properly formatting and compressing images can save many bytes of data.

Consider Fixing:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the

Mobile

browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- <https://www.google.com/recaptcha/api.js?onload=onloadCallback&render=explicit&hl=> (5 minutes)

Consider Fixing:

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target `Advanced Search` is close to 1 other tap targets final.
- The tap target `Airport/Airlines/Aviation` and 12 others are close to other tap targets final.
